

## WHAT'S IN YOUR BAG?

**W**ith travel ramping up, speakers from all over the world are packing their suitcases for gigs, conferences, and meet ups with fellow NSA members! In this series, we take a sneak peek into some of our members' bags to see what they're packing for life on the road!

WHO

**Sylvie Di Gusto, CSP**, is known for her style and jet-setting lifestyle! Originally from Austria and now based in Florida, Sylvie is no stranger to planes, trains, and automobiles to get her to clients, friends, and family. We interviewed Sylvie and asked **WHAT'S IN YOUR BAG?**

### HOMEVER

Stop steaming clothes in your hotel bathroom shower! Trust me, you can't smell it, but we do! Instead, get this small, flat, yet powerful travel steamer and iron. It's an all-in-one!

### LOVEBOX

What are you leaving behind while you're away from those who will miss you? The Lovebox app enables me to easily send pictures and messages back home while I'm on the road. Once they arrive, the heart starts spinning and my kids know to check for a love note from Mom! It's so much more exciting than just a text message.

### ENTERTAINER'S SECRET

Do you have a sore throat or hoarse voice? This spray will restore and maintain the quality of your voice effectively and fast.

### KRYOLAN

Probably the most-used beauty secret of Hollywood's top make-up artists, this is one of the most powerful make-up setting sprays you will ever find. It's not recommended for everyday use but great for hours in front of spotlights.

### VIOZON

It's the smallest foldable recording studio with a tripod, light, and remote control included! All I need to get my videos or live streams online is this lighting port-enabled mini microphone and my iPhone.

### SHIRT CASE

By now, we all know about the advantages of packing cubes, but what about those wrinkled collars on your dress shirts and blouses? This is the perfect solution to keep those collars crisp and suitcase organized!

### STARBUCKS GIFT CARD

Who doesn't love a little pick-me-up that is always with you on your phone? This is a digital Starbucks gift card that I let AV teams, flight attendants, and hotel staff snap a photo of, so they can treat themselves to a coffee. A little gesture goes a long way, especially with long days of events. ■
